Open-source program coordinator blending hands-on GitHub and web/CMS management with community building, event coordination, and communications and design. Currently coordinates a twice-weekly workshop program and its participant-management tooling, contributes to an open-source project on GitHub, and produces multi-channel marketing content (graphics, video, photography). Experienced onboarding and managing student/volunteer teams and engaging academic, government, and international partners.

Core Skills

Open Source & Web	Git & GitHub (repositories, issues, pull requests, version sync), Markdown, web content management / CMS administration (pages, content, settings, users), HTML/CSS, Python
Comms & Design	Newsletter & email-campaign production, social media strategy & content, Figma, Adobe Creative Cloud (Photoshop, Illustrator, InDesign), Premiere Pro (video), photography, print/poster design
Coordination	Event planning & logistics, room/catering booking, technology setup, participant & application management, student-team onboarding & tasking, budget/payment tracking, Microsoft Word, Excel, PowerPoint, Outlook
Languages	English (native), German (C1), Spanish (basic)

Experience

The Upskilling Labs <i>Programming & Events Co-Lead</i>	Washington, DC <i>Jan 2026 – Present</i>
- Coordinate 30+ workshops held twice weekly for 500+ participants — handling scheduling, room and logistics, technology setup, and day-of facilitator support. - Manage participant registration and application intake through a web platform (Next.js), including content updates and user management across the participant lifecycle. - Lead a recurring “GitHub for Team Collaboration” workshop series, teaching source control and collaborative Git/GitHub workflows to non-technical participants. - Conduct mentor and partner outreach and co-develop a 3-month curriculum, producing memos, materials, and program communications.	
Civic Tech DC — CIB Mango Tree (Open Source) <i>Volunteer Contributor & Documentation</i>	Washington, DC <i>Dec 2025 – Present</i>
- Contribute to an open-source tool within a public GitHub repository, working through issues, pull requests, and the project’s open-source review and version-control process. - Wrote and maintain project documentation and Markdown files; improved the NLP tokenizer and authored a whitepaper proposing multilingual support. - Partnering with the organization’s director to design a Civic Tech Academy — a cross-team open-source educational initiative for inter-team skill-building.	
Columbia Daily Spectator <i>Product Designer & Trainee Lead</i>	New York, NY <i>Jan 2020 – May 2023</i>
- Recruited, onboarded, and managed a team of 10 incoming trainees — building training modules and running design sessions (parallels managing a student ambassador team). - Designed web pages, prototypes, and digital layouts in Figma for products serving 300,000+ users; served as design-engineering liaison during the platform’s React migration.	
Self-Employed / Independent <i>Administrative Coordinator (Contract)</i>	Washington, DC <i>Oct 2025 – Present</i>
Manage financial recordkeeping and payment tracking, correspondence, and document organization for two clients; produce client deliverables including slide decks and design mock-ups.	
Storyboard Studios <i>Production & Media Assistant (Contract)</i>	New York, NY <i>Jun 2025 – Oct 2025</i>
Produced video content — edited footage and built rough cuts in Premiere Pro — and tagged, transcribed, and managed media assets across documentation systems.	
Self-Employed <i>Photographer</i>	New York, NY & Remote <i>2019 – 2023</i>
Shot 30+ portrait, headshot, and product sessions annually and photographed conferences and institutional events for Columbia University and ViacomCBS’s Smithsonian Channel.	

Education & Engagement

Columbia University <i>B.A., Information Science (Computer Science Department); German Literature & Cultural History</i>	New York, NY <i>May 2025</i>
Relevant coursework: Digital Humanities, Databases, Natural Language Processing, Networks/Crowds/Web, Data: Past Present & Future.	
Engagement: Attended GW OSCON (2025); active in the DC open-source and civic-tech community.	
Awards: Data-for-Good Fellowship (DSI); Laidlaw Research Fellowship; Deutsches Haus Senior Departmental Prize.
